

GAIA-BOR-10 Adapter

For Installing GAIA-Neo Isolators on Select Børresen Speakers

Installation Steps

1. Install the Thread Adapter

Fasten the included M10-1.5 thread adapter into the Børresen Adapter into the side with the flange.

2. Attach the Adapter to the GAIA-Neo

Thread the **Børresen Adapter** into the top of the GAIA-Neo housing and tighten securely by hand.

3. Install the Assembly on the Speaker

- Carefully tilt the speaker to access the feet.
- Remove the existing feet from the Børresen speaker.
- Insert the Børresen Adapter with GAIA Neo, through the mounting hole in the speaker outrigger.
- Rotate the GAIA Neo + Børresen Adapter to align the IsoAcoustics logo with the front of the speaker.
- From the top of the outrigger, thread the original Børresen foot cap into the adapter.
- Tighten to secure the GAIA-Neo in place.
